

SC Mini Connector Cleaner

The SC Mini Connector Cleaner is a high-performance device designed for cleaning the ferrule end faces of SC, ST and FC connectors. Carefully read this instruction manual before using this device. Please keep this instruction manual for future reference.

1. Safety precautions

Though our device is deemed safe, improper usage or handling can still inflict injury to others.

Connector Cleaner SC Mini is designed to clean SC, ST and FC connectors.

2. Notes on usage

Do not attempt to disassemble as this can cause damage to the device.

Do not re-use cleaning cloth as this will eliminate its cleaning ability.

Do not touch the cleaning cloth as this will cause contamination.

Do not pull the cleaning cloth, use only the device body.

Do not use this cleaner when the cloth is empty, as this can cause damage to the connector.

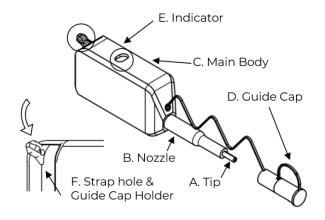

3. Notes on storage for extended periods

Do not expose device to direct sunlight, high temperature or high humidity. The cover on the guide cap should be always closed when device is not in use.

Step 3

Push the Main Body to start cleaning the connector end face. A "click" sound indicates end of cleaning process. Close the Guide Cap after use.

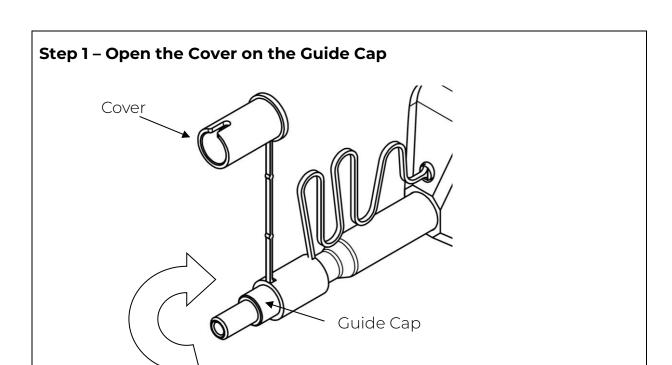

Be careful not to slant the SC Mini Connector Cleaner while inserting into the adapter/plug.

Do not overly exert force during insertion as this may cause damage to both the connector and the SC Mini Connector Cleaner.

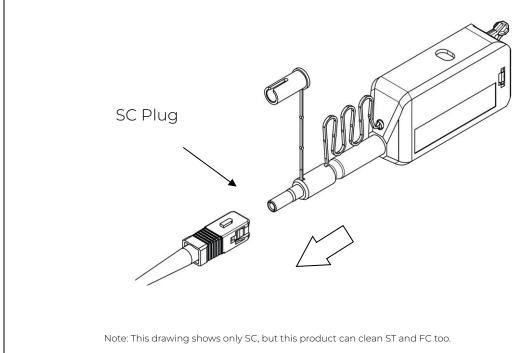

If pushing Main Body is inhibited, remove SC Mini Connector Cleaner from adapter/ plug and ensure that there is no sizeable debris inhibiting the cleaning process.

Connector plugs alone

Step 2 – Insert the tip of the cleaner into the plug.
