

Apprentice Opportunities at Prysmian

The planet's pathways

For more than 140 years, Prysmian has been leading the industry of high-technology cables and systems for energy and telecommunications. Innovation and technology are part of our daily lives. The combination of our global presence in cable research, development, innovation and manufacturing allows us to remain pioneers in the market.

Globally, we are present in 50 countries, 108 factories, 26 R&D centres and employ around 29,000 employees, with a strategic position that allows us to serve emerging markets.

With over 100 years of history in the UK, we have an established headquarters in Eastleigh near Southampton with three additional manufacturing sites in Wrexham and Aberdare to help better serve our UK and export markets and a further site in Middlesbrough for our submarine installation business. We also have local area offices in Leeds, Glasgow and Stourport which form part of our high voltage installation and street lighting businesses.

What We Offer

Apprenticeships at Prysmian are all about picking up skills for the workplace and embarking on a long and successful career. Our apprenticeships range from Level 3 to Level 6 and each pathway gives you everything you need to start your career in the industry. Alongside work, you will study a related qualification at a local college or university.

Additionally, there are plenty of opportunities to get involved in social activities and volunteering with other Apprentices, Students and Graduates.

You have the opportunity to:

- Work on globally impactful projects
- Learn from experts
- Experiment in a dynamic environment
- Express your ideas and your potential
- Be supported in your career path
- Be part of an international organisation, where you're able to work with colleagues from all over the world
- Be part of the energy transition and the digitalisation journey

Hear from our Apprentices

“The main reason I chose to do an apprenticeship is that I wanted to be able to earn money whilst also learning in order to give myself more financial freedom and set myself up for my career. Apprenticeships are a fantastic first step into a professional environment as they give you the qualifications needed whilst also giving you the invaluable experience of working a full time job. Apprenticeships at Prysmian are a great opportunity as they allow you to work for such a large company and with such a variety of roles there’s something for everyone which also means there is a good support base of other apprentices who can offer help and support.”

Ben Lacey
Digital Marketing Apprentice
Studies Digital Marketing

“I chose to do an apprenticeship to be able to get a high-level qualification as well as valuable experience within a workplace. I like that an apprenticeship provides me with 3 years of experience where I can put what I learn into practice. At Prysmian I am given opportunities outside of my set job role to improve my own skill set. A particular highlight is being able to put the presentations skills I’ve learnt at university into practice within a meeting.”

Tommy Juszczynski
ENS Bid Coordinator
Studies Business Leadership

“I think an apprenticeship is a brilliant opportunity. You not only get taught the technical aspects of a discipline, but you get hands-on experience. Luckily in Prysmian, there is a wealth of knowledge from both operators and staff so every day I was learning something new. At first, it’s a daunting thought of not knowing anything about a business and not wanting to step on anyone’s toes but when you get past that I found everyone was willing to help and offer knowledge and advice. The opportunity to gain qualifications and hands-on experience is invaluable.”

Kieran Griffiths
Distribution Manager, Former Process Engineer Apprentice
Studied Mechanical Engineering

“I chose the apprentice path as I wanted to gain experience and a qualification whilst learning. I like how I am gaining knowledge as well as skill whilst on the way to getting my Business Admin Qualification. Prysmian has enabled me to use my skills and knowledge and challenge myself within the work role, this really helps me develop my learning. A highlight at Prysmian has been working with my team and learning new skills every day.”
