

RoHS COMPLIANCE STATEMENT

Products manufactured by Prysmian UK which are within the scope of the Restriction of Hazardous Substances in Electrical and Electronic Equipment (ROHS) Regulations 2012 (SI 2012/3032). The *RoHS Regulations* have been amended as a result of the UK leaving the EU (amendment 2022 - [SI 2022/622](#)). These Regulations require manufacturers, importers and distributors to restrict the use of certain specified hazardous substances including some heavy metals and flame retardants in electrical and electronic equipment, and require equipment to be conformity marked before being placed on the market.

Specifically, the products manufactured do not exceed the allowable maximum concentration values by weight in homogeneous materials, as described below:

- cadmium (0.01%)
- lead (0.1%)
- mercury (0.1%)
- hexavalent chromium (0.1%)
- polybrominated biphenyls (0.1%)
- polybrominated diphenyl ethers (0.1%)
- bis(2-ethylhexyl) phthalate (0.1%)
- benzyl butyl phthalate (0.1%)
- dibutyl phthalate (0.1%)
- diisobutyl phthalate (0.1%)

Note:

- A compound that is used to produce a range of components including the UMJ, CMJ, MMJ, LMJ, CLI, Flexibox, SDWB, 6FDP, ECT Box, HDB4, PBI, MTWB, Home Hub, Quickdraw and PMI do contain 2,2',6,6'-tetrabromo-4,4'- isopropylidenediphenol (CAS No. 79-94-7, EC Number 201-236-9). In these cases, the addition rate exceeds the 0.1% notification threshold. The articles as sold are not hazardous to health or the environment when used as intended. Disposal of these articles must be according to local regulations.
- A small number of Prysmian articles for use in high voltage applications (lead sheathed power cables and some cable accessories) contain lead at a concentration level greater than the specified limit of 0.1%.

Please reach out to cables.marketing.uk@prysmiangroup.com, should you require further information on these specific articles.
